Academy: E license or E Waiver, regardless of # of teams

XLeague and State Coach: 1 Team – E license or E Waiver

XLeague and State Coach: more than 1 XLeague or State team – D license or D Waiver

State Team Composition & Roster Continuity

If you have a State team or a District team that will be moving into the State Program please pay particular attention to your roster continuity. The State Competition Committee has established that the standings for a particular season are earned and maintained by the interactions of the players as a collective team. As a result, to retain the previous season standing in the state competition program, U10/U11 must have 6 returning - U12 and up must have 9 of the players on the original registration roster (turned into the State no later than July 15th for Fall/ February 15 for Spring) as returning players from the Previous season roster as of State Cup freeze date. It is the returning collective players that maintain the spot, not the team name, club or coach. Please make sure that you meet this cut-off. Failure to meet this requirement will result in the team being dropped a division at alignment.
